

BAR GATES

Bar Gates are designed for both residential and commercial properties and can be customised in design and level of security.

- Made from high-grade steel, a polyester powder coated finish is applied as standard, with a hot dip galvanising option available for extreme environments.
- A variety of designs are available including entrance gates, anti-ram barriers, driveway gates, residential security gates and commercial gates.
- Supplied as standard in white RAL 9016, with all other RAL colours available upon request.
- Custom and decorative designs can be manufactured to the required specification.

APPLICATION

- Bar gates are suitable for both residential and commercial properties to provide an extra layer of security for entrance ways.

SPECIFICATION

- Mortice deadlock locking mechanism as standard, other hardware can be specified.
- Powder coated for protection against rusting.
- Guaranteed for a period of 12 months from date of purchase.
