

ROLLER SHUTTERS

FIRE RATED

Fire Rated Roller Shutters are tough physical barriers that provide a strong visual and physical deterrent while offering up to 4-hour rated fire protection.

- Electrically operated and connected with fire alarms to automatically shut when an alarm is activated.
- The shutters neatly fold away above the window or doorway, keeping them out of sight whilst your premises are in use. They are a discreet and visually unobtrusive solution for your business or home.
- Made in galvanised steel as standard.
- Supplied with a battery backup that is activated in the event of a loss of power.

APPLICATION

- Fire rated roller shutters are suitable for internal or external installation to protect windows and doors.
- Ideal for commercial buildings, food kitchens, cafeterias and public sector buildings.

SPECIFICATION

- Can be powder coated in any RAL colour.
- Guaranteed for a period of 12 months from date of purchase.
- Operated by tubular motor, complete with a relay to automatically close on signal from fire alarm.
- Accessories available include audio/visual warning alarms, smoke and heat detectors and break glass units.
