

RETRACTABLE GRILLES

Retractable Window Grilles combine a classic appearance with a high level of protection, ideal for the home or workplace. Available in both standard and insurance approved options, the grilles are designed to keep intruders out while letting maximum light in, perfect for vulnerable ground floor doors and windows.

- The grilles provide a visual deterrent and feeling of safety, yet can be easily drawn back as and when required.
- Standard retractable grilles are provided with the smallest bunch size available on the market.
- Insurance approved grilles tested to Loss Prevention Certification Board and Secured by Design standards are also available, which can reduce insurance premiums.
- An 'X' Lattice design is supplied as standard with an 'S' Lattice available as an insurance approved option. Our grilles can also be powder coated in a range of colours.

APPLICATION

- Retractable window grilles can be easily fitted to the face or within the reveal of a window or door aperture.
- Suitable for commercial, retail, domestic properties, offices and buildings where having the flexibility to pull back the grilles for better aesthetics is important.

SPECIFICATION

- Made from heavy duty steel components throughout.
- Insurance approved options feature a multi-point locking system operating from a single key.
- Guaranteed for a period of 12 months from date of purchase.
- Pre-galvanised components with high quality powder coat finish for excellent durability.
