

ROLLER SHUTTERS ALUMINIUM

Aluminium Roller Shutters provide a tough physical barrier and visual deterrent as well as providing more aesthetically pleasing designs making them ideal for retail or residential properties.

- Our standard version of aluminium shutters has a much smaller box and guide size compared to the more industrial steel shutters.
- The shutters neatly fold away above the window or doorway, keeping them out of sight whilst your premises are in use. They are a discreet and visually unobtrusive solution for your business or home.
- Available in manual or electric operation.
- Supplied in white or brown as standard but can be powder-coated in any RAL colour and can be further customised with punched or perforated designs.

APPLICATION

- Roller shutters are suitable for internal or external installation to protect windows and doors.
- Ideal for retail and residential settings where appearance is as paramount as security.

SPECIFICATION

- Our range includes shutters that are tested and approved to LPS 1175-1 and are police and insurance approved.
- Available in a range of styles and finishes.
- Guaranteed for a period of 12 months from date of purchase.
- Multiple operation methods available including key switches and remote controls.
