

ROLLER SHUTTERS STEEL

Steel Roller Shutters are tough physical barriers that provide a strong visual deterrent offering maximum window or door protection and security from theft and vandalism.

- Compared to cheaper aluminium roller shutters, our galvanised steel shutters offer a much higher security specification with 75mm lath and 20 gauge steel.
- The shutters neatly fold away above the window or doorway, keeping them out of sight whilst your premises are in use. They are a discreet and visually unobtrusive solution for your business or home.
- Available in manual or electric operation.
- Supplied in white or brown as standard but can be powder-coated in any RAL colour.

APPLICATION

- Roller shutters are suitable for internal or external installation to protect windows and doors.
- Ideal for retail, commercial or public buildings where security is of paramount importance.

SPECIFICATION

- Our range includes shutters that are tested and approved to LPS 1175-1 and are police and insurance approved.
- Available in a range of styles and finishes.
- Guaranteed for a period of 12 months from date of purchase.
- Multiple operation methods available including key switches and remote controls.
